Urban Moods and Urban Myths: Do Neighbourhoods Matter for Mental Health?

Toronto's diversity is reflected in our neighbourhoods.
Does the neighbourhood you live in shape the way you feel and think?

Join us in a spirited exploration of the science – and philosophy – linking mental well-being and urban living. This edition of CAFÉ SCIENTIFIQUE is moderated by philosopher **Mark Kingwell**. Urban health scientists **Patricia O'Campo**, **Jim Dunn** and **Kwame McKenzie** will discuss with you:

- How do scientists measure links between neighbourhoods and health?
- Who is affected?
- When do neighbourhood initiatives produce good results for mental health?

Panelists:

Patricia O'Campo, PhD

Director,
Centre for Research on Inner City Health,
St. Michael's Hospital

Jim Dunn, PhD

Research Scientist,
Centre for Research on Inner City Health,
St. Michael's Hospital

Kwame McKenzie, MD, MRC Psych

Senior Scientist and Deputy Director,
Schizophrenia Program,
Centre for Addiction and Mental Health

Moderator:

Mark Kingwell, PhD, DFA

Professor, Department of Philosophy
University of Toronto
